# MEER M. MUAZZAM

## 19SW114

FLUTTER DEVELOPER

# ABOUT ME

Hi, I'm Meer Muhammad Muazzam, a final year software engineering student at MUET Jamshoro. As a Flutter developer, I love creating user-friendly mobile apps that leave a lasting impression. I also have a basic understanding of web development and experience as an academic writer. With a passion for technology and writing, I'm constantly seeking new challenges to grow professionally.

# Education

- **BE (SOFTWARE ENGINEERING)**

Mehran University Of Engineering & Technology | 2019 - 2023, Jamshoro

- **HSC-II**

BISE, Hyderabad | 2018 - 2019, Sakrand (A grade)

- **SSC-II**

BISE, Hyderabad | 2016 - 2017, Sakrand (A1-grade)

# Personal Skills

I'm a skilled Flutter developer with a strong background in software engineering. I have experience in creating visually stunning and user-friendly mobile applications, and also possess a basic knowledge of web development. Additionally, I have honed my research and writing skills through my experience as an academic writer.

FLUTTER DEVELOPER

WEB DEV (HTML, CSS, JS)

CONTENT WRITER(ACADEMIC)

# Tech Stack

These are the tech skills i have build over 2 years.
More to come InshAllah

- FLUTTER
- DART
- HTML CSS
- FIREBASE
- PROVIDER
- WEB API'S
- WEB SOCKETS
- JAVASCRIPT
- GIT/GITHUB
- LINUX

# WORK EXPERIENCE

In December 2021, i started my professional career as a flutter developer intern in a indian seed funded startup remotely. Then in August, i got chance to work in a startup as a CTO (flutter developer). Meanwhile all this time, i continued to freelance as a content writer.

## FLUTTER DEVELOPER

**Stitch & Sew | 30-08-2022 - 24-02-2023, Jamshoro**
**Deleivered a full fledged e-commerce app for online tailoring service.**
**Managed a team of 3 web developers  and 2 flutter developers.**
**Features i implemented:**
**Authentication, Database, Customize Dress Feature, Order Tracking**

## FLUTTER DEVELOPER INTERN

**Grablor Technologies | 17-12-2021 - 20-01-2022, Remote**

**Designed and Implemented ads in a production-level app.**
**(https://appio.me/)**

# ABOUT MY FIELD (FLUTTER)

Flutter development is a fast-growing field that involves building high-quality, visually appealing, and user-friendly cross-platform applications using the Flutter SDK. It requires a good understanding of the Dart programming language, basics of OOP and a creative mindset to design stunning user interfaces with seamless animations and transitions. With the increasing demand for mobile applications across various industries, Flutter development offers exciting opportunities for career growth and innovation.

# Roadmap to learn Flutter

- LEARN DART PROGRAMMING LANGUAGE BASICS
- FAMILIARIZE YOURSELF WITH FLUTTER ARCHITECTURE AND ITS FEATURES
- LEARN HOW TO USE FLUTTER WIDGETS TO BUILD USER INTERFACES
- LEARN HOW TO USE STATE MANAGEMENT TECHNIQUES LIKE PROVIDER, RIVERPOD, GETX OR BLOC
- LEARN HOW TO INTEGRATE APIS INTO YOUR FLUTTER APP USING PACKAGES LIKE HTTP OR DIO
- LEARN HOW TO ADD ANIMATIONS AND CUSTOM WIDGETS TO YOUR APP
- LEARN HOW TO DEBUG AND OPTIMIZE YOUR APP FOR PERFORMANCE
- PRACTICE BUILDING REAL-WORLD PROJECTS TO GAIN EXPERIENCE
- KEEP UP TO DATE WITH FLUTTER UPDATES AND NEW FEATURES THROUGH OFFICIAL DOCUMENTATION, FORUMS, AND COMMUNITY RESOURCES.

# Pros of learning Flutter

- MVPS: FLUTTER IS GREAT FOR CREATING SIMPLE APPS TO TEST BUSINESS IDEAS.
- BUILT-IN RENDERING ENGINE: FLUTTER COMES WITH ITS OWN RENDERING ENGINE, SAVING TIME AND MONEY.
- FASTER DEVELOPMENT: FLUTTER ALLOWS DEVELOPERS TO CREATE APPS FOR MULTIPLE PLATFORMS USING A SINGLE CODE BASE AND HAS A HOT RELOADING FEATURE TO SAVE TIME.
- WRITE ONCE APPROACH: FLUTTER ALLOWS DEVELOPERS TO WRITE CODE THAT WORKS ACROSS A WIDE RANGE OF DEVICES FOR BOTH ANDROID AND IOS.
- NATIVE-LIKE PERFORMANCE: FLUTTER APPS HAVE THE PERFORMANCE OF NATIVE APPS, AND THE AOT COMPILER MAKES THE PROCESS FASTER.
- RAPID TESTING: FLUTTER APPS REQUIRE LESS TESTING BECAUSE THERE IS ONLY ONE CODEBASE TO TEST.
- TRANSPARENT DOCUMENTATION: FLUTTER HAS CLEAR DOCUMENTATION THAT MAKES IT EASIER TO BUILD APPS.
- UI ELEMENTS AS WIDGETS: FLUTTER'S WIDGETS ALLOW FOR EASY CREATION OF INTERACTIVE UIS.
- EMERGING COMMUNITY: FLUTTER HAS A GROWING COMMUNITY THAT DRAWS DEVELOPERS TO THE PLATFORM.

# Learning Wishlist/ Future Goals

- NODE JS
- REACT JS
- BASICS OF NATIVE ANDROID (KOTLIN / JAVA)
- CLOUD COMPUTING

IN FUTURE, MY GOAL IS TO EXPLORE MORE FIELDS. WEB APPLICATIONS ALWAYS FASCINATE ME, SO I WANT TO LEARN REACT JS. NODE JS IS A POPULAR BACKEND SKILL SO I WANT TO LEARN IT TOO AS IT CAN ALSO HELP ME BUILD FLUTTER APPLICATIONS WITH NODEJS AS A BACKEND SERVICE.
